Investment Objective & Approach

LTCN's investment objective is for the value of its shares (based on LTC per Share) to reflect the value of LTC held by the Trust, less fees and expenses.³ To date, LTCN has not met its investment objective and the Shares quoted on OTCQX have not reflected the value of LTC held by LTCN, less LTCN's expenses and other liabilities, but have instead traded at a premium or discount to such value, which at times has been substantial.

1. Grayscale Products issue shares on a continuous basis or periodic basis. This Product's private placement is currently closed. Investments in the Products are speculative investments that involve high degrees of risk, including a partial or total loss of invested funds. Grayscale Products are not suitable for any investor that cannot afford loss of the entire investment. The information herein is only provided with respect to shares quoted on OTC Markets, and prospective investors are not to construe the contents of this document as a recommendation to purchase shares directly from the Product.

2. Past performance is not indicative of future returns. Performance reflects the closing price of the Product's shares at 4pm, New York time, on OTC Markets.

3. The shares of each Product are intended to reflect the price of the digital asset(s) held by such Product (based on digital asset(s) per share), less such Product's expenses and other liabilities. Because each Product does not currently operate a redemption program, there can be no assurance that the value of such Product's shares will reflect the value of the assets held by such Product, less such Product's expenses and other liabilities, and the shares of such Product, if traded on any secondary market, may trade at a substantial premium over, or a substantial discount to, the value of the assets held by such Product, less such Product's expenses and other liabilities, and such Product may be unable to meet its investment objective.

4. Each Product uses the applicable digital asset(s)'s CoinDesk Litecoin Price Index (LTX) to calculate its Digital Asset Holdings, which is the aggregate U.S. Dollar value of the applicable digital asset(s) in the Product, calculated using the Index Price, less the U.S. Dollar value of its liabilities and expenses. Digital Asset Holdings is calculated using non-GAAP methodology. Digital Asset Holdings per Share is calculated by dividing Digital Asset Holdings by the number of shares currently outstanding.

5. The Product will not generate any income and regularly sells/distributes digital assets to pay for its ongoing expenses. Therefore, the amount of digital assets represented by each share will gradually decline over time.

Carefully consider each Product's investment objectives, risk factors, fees and expenses before investing. This and other information can be found in each Product's private placement memorandum, which may be obtained from Grayscale and, for each Product registered with the SEC and/or listed on the OTC Markets, such Product's annual report or information statement, which may be obtained by visiting the SEC's website for Products that are SEC reporting companies or the OTC Markets website for Products that report under the Alternative Reporting Standards of OTC Markets Group. Reports on OTC Markets are not prepared in accordance with SEC requirements and may not contain all information that is useful for an informed investment decision. Read these documents carefully before investing.

This information should not be relied upon as research, investment advice, or a recommendation regarding any products, strategies, or any security in particular. This material is strictly for illustrative, educational, or informational purposes and is subject to change.

The shares of each Product are not registered under the Securities Act of 1933 (the "Securities Act"), the Securities Exchange Act of 1934 (except for Grayscale Bitcoin Trust and Grayscale Ethereum Trust), the Investment Company Act of 1940, or any state securities laws. The Products are offered in private placements pursuant to the exemption from registration provided by Rule 506(c) under Regulation D of the Securities Act and are only available to accredited investors. As a result, the shares of each Product are restricted and subject to significant limitations on resale and transfers. Potential investors in any Product should carefully consider the long-term nature of an investment in that Product prior to making an investment decision. The shares of certain Products are also publicly quoted on OTC Markets and shares that have become unrestricted in accordance with the rules and regulations of the SEC may be bought and sold throughout the day through any brokerage account.
